

## THE FIRST LINE OF DEFENSE IN DATA CENTER INTEGRITY

*Dependable fire suppression systems are critical in a worst-case scenario—so get the confidence that comes with choosing America’s leading supplier of steel sprinkler pipe.*

With decades of experience protecting high-stakes installations, it’s no surprise we’re also approved for use in data centers. Our respected lines include our exclusive Eddy Pipe family, with antimicrobial coatings to maintain unobstructed flows. We also support LEED and green building initiatives: all Bull Moose pipe carries a UL Environmental Product Declaration.

### OTHER BULL MOOSE SPRINKLER PIPE ADVANTAGES:

- Meets ASTM A135 and A795 Type E, Grade A Certified
- UL listed (US & Canada) and FM approved.
- Complies with NFPA-13, 13R and 14
- Industry-leading hydraulic characteristics
- UV Coated
- All pipe NDT weld tested
- Exclusive maker of pre-painted & stenciled Reddi-Pipe®

*For dependable fire protection, remember: every data center needs **The Moose.***

For exceptional strength.
